

Innovations In Emergency Medicine

Conference Coordinator
Shawn Edouard, MBA, EMT-P

Emergency Medical Services Assistant Director

EMS Research in the management of Trauma and Medical Patients is advancing rapidly.

This 4.5 hours workshop is devoted to updating EMS providers in the best practices related to Trauma, Stroke Management, Airway Management, and the Appropriate Utilization of Helicopters for Patient Transport.

This program has been approved for
4.5 hours of Non-Core CME for all NYS
EMS Providers
