OFFICE OF THE SUPERVISOR
TOWN OF SOUTHOOLD

To all Southold residents:

We are anticipating a substantial storm to move into the area by Monday, January 26 with light snow during the day getting heavier during the evening hours and overnight. Winds gusts reaching 65 miles per hour, wind chills in the single digits and drifting snow will make conditions hazardous.

Southold Town's Emergency Response Team would like to remind all residents of the following:

*Preparations should be made early prior to the storm. You should stock up on supplies prior to the storm and prepare for power outages. Some items that should be kept on hand are bottled water and non-perishable food items, Flashlights with extra batteries, a first aid kit, a battery operated radio and extra blankets and sleeping bags. People should remember to charge all cellphones and mobile devices and all home generators should be checked.

*Driving should be kept to a minimum and only for necessary travel. All cars should be parked off the road so that the Police, Fire Departments and Southold's Highway Department crews can perform their respective duties.

*Monitor your local radio stations, new sites, and Southold Town website for more instructions, information and announcements as the storm develops.

*Important numbers to know:

Southold Town Emergency	911
Southold Town Non-Emergency	631-765-2600
Southold Town EOC	631-765-2784
Southold Town Highway	631-765-3140
Southold Human Resource Center	631-298-4460
PSE&G	631-490-0075
National Grid	631-490-0045

This extreme weather event will create difficulties and inconvenience for all of our residents. For the safety of all of our residents we ask that you be prepared and follow all requests and suggested actions listed above so that we can address all issues as they arise.
